## Subject Index

Acro-osteolysis, guitar player . . . . .	275
Actinomycosis, primary, of the right flank ( <i>case report</i> ) . . . . .	282
Air embolism as a complication of hip arthrography . . . . .	11
Amyloidosis, primary, involving the skeletal system ( <i>case report</i> ) . . . . .	69
Aneurysmal bone cyst of L2 ( <i>case report</i> ) . . . . .	229
Anomalous attachment of the transverse process to the vertebral body: An accessory finding in congenital absence of a lumbar pedicle . . . . .	47
Artery, tortuous vertebral, causing erosive defect of C2 ( <i>case report</i> ) . . . . .	51
Arthritis, tuberculous, of knee with "cold abscess" communicating with knee joint ( <i>case report</i> ) . . . . .	75
Arthrographic and clinical considerations: Capsular constriction of the hip . . . . .	1
Arthrography, hip, air embolism as a complication of . . . . .	11
Aspects of atypical degenerative lesions of vertebrae . . . . .	103
Atypical degenerative lesions of vertebrae, aspects of . . . . .	103
Basal cell, multiple, nevus syndrome (Gorlin syndrome) ( <i>case report</i> ) . . . . .	62
Benign giant cell tumor of left clavicle, polyostotic Paget disease complicated by ( <i>case report</i> ) . . . . .	233
Bilateral, almost symmetrical skeletal metastases (both femora) from bronchogenic carcinoma ( <i>case report</i> ) . . . . .	144
Breast cancer patients with osseous metastases, clinical and radiographic correlations in . . . . .	27
Bronchogenic carcinoma, bilateral, almost symmetrical skeletal metastases (both femora) from ( <i>case report</i> ) . . . . .	144
Bursa, giant cystic, hereditary multiple osteocartilaginous exostoses affecting right femur with ( <i>case report</i> ) . . . . .	134
Caffey disease (infantile cortical hyperostosis) ( <i>case report</i> ) . . . . .	77
Cancer, breast, patients with osseous metastases, clinical and radiographic correlations in . . . . .	27
Capsular constriction of the hip: Arthrographic and clinical considerations . . . . .	1
Carcinoma, bronchogenic, bilateral, almost symmetrical skeletal metastases (both femora) from ( <i>case report</i> ) . . . . .	144
Carcinoma, squamous cell, arising in chronic, draining sinus tract secondary to osteomyelitis of right tibia ( <i>case report</i> ) . . . . .	149
Cementum-like bone production, solitary bone cyst with ( <i>case report</i> ) . . . . .	213
Central low-grade osteosarcoma of tibia ( <i>case report</i> ) . . . . .	65
Cervical spine, elusive fractures of, value of computed tomography scanning . . . . .	175
Childhood, disturbances of trabecular architecture in the upper end of the femur in . . . . .	165
Childhood frostbite injury, radiographic changes in the hands following . . . . .	33
Chondroma, periosteal: A radiographic spectrum . . . . .	15
Chondrosarcoma, extraskelatal myxoid ( <i>case report</i> ) . . . . .	291
Chondrosarcoma, mesenchymal, of the right side of the pelvis and thigh ( <i>case report</i> ) . . . . .	58
Clavicle, duplication of the . . . . .	281
Clavicle, left, benign giant cell tumor of, polyostotic Paget disease complicated by ( <i>case report</i> ) . . . . .	233
Clinical and arthrographic considerations: Capsular constriction of the hip . . . . .	1
Clinical and radiographic correlations in breast cancer patients with osseous metastases . . . . .	27
"Cold abscess", tuberculous arthritis of knee with, communicating with knee joint ( <i>case report</i> ) . . . . .	75
Complication of hip arthrography, air embolism as a . . . . .	11
Complication, possible, of untreated congenital hip dislocation, ischemic necrosis of the contralateral hip . . . . .	279
Computed tomography scanning, value of, in elusive fractures of the cervical spine . . . . .	175
Congenital absence of a lumbar pedicle, an accessory finding: Anomalous attachment of the transverse process to the vertebral body . . . . .	47
Congenital hip dislocation, untreated, ischemic necrosis of the contralateral hip as a possible complication of . . . . .	279
Congenital, infantile fibrosarcoma of humerus ( <i>case report</i> ) . . . . .	208
Constriction, capsular, of the hip: Arthrographic and clinical considerations . . . . .	1
Correlative roentgenography and morphology of the longitudinal epiphyseal bracket . . . . .	109
Cortical hyperostosis, infantile (Caffey disease) ( <i>case report</i> ) . . . . .	77
Craniovertebral junction, gas and metrizamide myelography in abnormalities of . . . . .	85
Cyst, aneurysmal bone, of L2 ( <i>case report</i> ) . . . . .	229
Cyst, solitary bone, with cementum-like bone production ( <i>case report</i> ) . . . . .	213
Degenerative atypical lesions of vertebrae, aspects of . . . . .	103
Delayed diagnosis, a cause of - Referred pain in the lower leg . . . . .	39
Destruction, large joint in erosive osteoarthritis . . . . .	267
Destruction, unilateral focal, of the distal femoral epiphysis and spina bifida . . . . .	119
Development, radiology of postnatal skeletal. IV. Distal radius and ulna . . . . .	255
Dislocation, untreated congenital hip, ischemic necrosis of the contralateral hip as a possible complication of . . . . .	279
Disturbances of trabecular architecture in the upper end of the femur in childhood . . . . .	165
Duplication of the clavicle . . . . .	281
Electrical injury involving the immature skeleton . . . . .	187
Elusive fractures of the cervical spine, value of computed tomography scanning . . . . .	175
Embolism, air, as a complication of hip arthrography . . . . .	11
Enchondroma of bone, malignant fibrous histiocytoma associated with ( <i>case report</i> ) . . . . .	127
Epiphyseal bracket, longitudinal, correlative roentgenography and morphology of . . . . .	109
Erosive defect of C2, tortuous vertebral artery causing ( <i>case report</i> ) . . . . .	51
Erosive osteoarthritis, large joint destruction in . . . . .	267
Exostoses, multiple hereditary osteocartilaginous, affecting the right femur with an overlying giant cystic bursa (exostosis bursata) ( <i>case report</i> ) . . . . .	134
Extraskeletal myxoid chondrosarcoma ( <i>case report</i> ) . . . . .	291
Extremity masses, ultrasonographic diagnosis of . . . . .	157
Femora, bilateral, almost symmetrical skeletal metastases of, from bronchogenic carcinoma ( <i>case report</i> ) . . . . .	144
Femoral epiphysis, distal, unilateral focal destruction of and spina bifida . . . . .	119
Femoral neck, osteoid osteoma of, with localized synovitis ( <i>case report</i> ) . . . . .	286
Femoral neck, stress fracture of the: A scintigraphic sign for early diagnosis . . . . .	271
Femur, malignant hemangiopericytoma of, metastatic from intracranial lesion ( <i>case report</i> ) . . . . .	303
Femur, multiple hereditary osteocartilaginous exostoses affecting, with an overlying giant cystic bursa (exostosis bursata) ( <i>case report</i> ) . . . . .	134
Femur, periosteal osteosarcoma of ( <i>case report</i> ) . . . . .	131
Femur, upper end, disturbances of trabecular architecture in childhood . . . . .	165
Fibroma, ossifying, of tibia (and fibula) ( <i>case report</i> ) . . . . .	307

Fibrosarcoma, infantile congenital of humerus ( <i>case report</i> ) . . . . .	208
Fibrous histiocytoma, malignant, associated with enchondroma of bone ( <i>case report</i> ) . . . . .	127
Fibula and tibia, ossifying fibroma of ( <i>case report</i> ) . . . . .	307
Focal destruction, unilateral, of the distal femoral epiphysis and spina bifida . . . . .	119
Fracture stress, of the femoral neck: A scintigraphic sign for early diagnosis . . . . .	271
Frostbite, childhood injury, radiographic changes in the hands following . . . . .	33
Gas and metrizamide myelography in abnormalities of the cranivertebral junction . . . . .	85
Giant cell tumor affecting L2 and L3 and Paget disease of bone ( <i>case report</i> ) . . . . .	299
Giant cell tumor, benign, of left clavicle, polyostotic Paget disease complicated by ( <i>case report</i> ) . . . . .	233
Giant cystic bursa, multiple hereditary osteocartilaginous exostoses affecting right femur with a ( <i>case report</i> ) . . . . .	134
Gorlin syndrome (multiple basal cell nevus syndrome) ( <i>case report</i> ) . . . . .	62
Growth mechanisms of the immature skeleton, injury to . . . . .	237
Guitar player acro-osteolysis . . . . .	275
Hands, radiographic changes in, following childhood frostbite injury . . . . .	33
Hemangiopericytoma, malignant, of femur, metastatic from intracranial lesion ( <i>case report</i> ) . . . . .	303
Hemangiopericytoma, primary, of the right radius ( <i>case report</i> ) . . . . .	139
Hemophilic pseudotumor of ilium and soft tissues ( <i>case report</i> ) . . . . .	54
Hereditary multiple osteocartilaginous exostoses affecting right femur with an overlying giant cystic bursa (exostosis bursata) ( <i>case report</i> ) . . . . .	134
Hip arthrography, air embolism as a complication of . . . . .	11
Hip, capsular constriction of the: Arthrographic and clinical considerations . . . . .	1
Hip dislocation, congenital untreated, ischemic necrosis of the contralateral hip as a possible complication of . . . . .	279
Hip, right, pigmented villonodular synovitis (PVS) of ( <i>case report</i> ) . . . . .	123
Histiocytoma, malignant fibrous, associated with enchondroma of bone ( <i>case report</i> ) . . . . .	127
Humerus, infantile congenital fibrosarcoma of ( <i>case report</i> ) . . . . .	208
Hyperostosis, infantile cortical (Caffey disease) ( <i>case report</i> ) . . . . .	77
Ilium and soft tissues, hemophilic pseudotumor of ( <i>case report</i> ) . . . . .	54
Immature skeleton, electrical injury involving . . . . .	187
Immature skeleton, injury to growth mechanisms of . . . . .	237
Infantile congenital fibrosarcoma of humerus ( <i>case report</i> ) . . . . .	208
Infantile cortical hyperostosis (Caffey disease) ( <i>case report</i> ) . . . . .	77
Injury to the growth mechanisms of the immature skeleton . . . . .	237
Intracranial lesion, malignant hemangiopericytoma of femur, metastatic from ( <i>case report</i> ) . . . . .	303
Ischemic necrosis of the contralateral hip as a possible complication of untreated congenital hip dislocation . . . . .	279
Joint, large, destruction in erosive osteoarthritis . . . . .	267
Knee, synovial sarcoma of the ( <i>case report</i> ) . . . . .	221
Knee, tuberculous arthritis of, with "cold abscess" communicating with knee joint ( <i>case report</i> ) . . . . .	75
Large joint destruction in erosive osteoarthritis . . . . .	267
Leg, lower, referred pain in - A cause of delayed diagnosis . . . . .	39
Leiomyoma of the periosteum of the tibia ( <i>case report</i> ) . . . . .	153
Low-grade central osteosarcoma of tibia ( <i>case report</i> ) . . . . .	65
Lumbar pedicle, an accessory finding in congenital absence of: Anomalous attachment of the transverse process to the vertebral body . . . . .	47
Madura skull. Mycetoma due to <i>Streptomyces somaliensis</i> ( <i>case report</i> ) . . . . .	225
Malignant fibrous histiocytoma associated with enchondroma of bone ( <i>case report</i> ) . . . . .	127
Malignant, hemangiopericytoma of femur, metastatic from intracranial lesion ( <i>case report</i> ) . . . . .	303
Mesenchymal chondrosarcoma of the right side of the pelvis and thigh ( <i>case report</i> ) . . . . .	58
Metaphyseal fibrous defect and osteosarcoma, concurrence of. Report of a case and review of the literature . . . . .	179
Metastases, bilateral, almost symmetrical skeletal, (both femora) from bronchogenic carcinoma ( <i>case report</i> ) . . . . .	144
Metastases, osseous, clinical and radiographic correlations in breast cancer patients with . . . . .	27
Metastatic from intracranial lesion, malignant hemangiopericytoma of femur ( <i>case report</i> ) . . . . .	303
Metrizamide and gas myelography in abnormalities of the cranivertebral junction . . . . .	85
Mixed-sclerosing-bone-dystrophy: Report of a case and review of the literature . . . . .	95
Morphology and correlative roentgenography of the longitudinal epiphyseal bracket . . . . .	109
Multiple basal cell nevus syndrome (Gorlin syndrome) ( <i>case report</i> ) . . . . .	62
Multiple hereditary osteocartilaginous exostoses affecting right femur with an overlying giant cystic bursa (exostosis bursata) ( <i>case report</i> ) . . . . .	134
Mycetoma due to <i>Streptomyces somaliensis</i> (Madura skull) ( <i>case report</i> ) . . . . .	225
Myelography, metrizamide and gas, in abnormalities of the cranivertebral junction . . . . .	85
Myxoid chondrosarcoma, extraskeletal ( <i>case report</i> ) . . . . .	291
Necrosis, ischemic, of the contralateral hip as a possible complication of untreated congenital hip dislocation . . . . .	279
Neuropathy, peripheral, solitary plasmacytoma associated with ( <i>case report</i> ) . . . . .	217
Nevus, multiple basal cell, syndrome (Gorlin syndrome) ( <i>case report</i> ) . . . . .	62
Nonunion . . . . .	21
Obituary - Erwin Uehlinger . . . . .	83
Osseous metastases, clinical and radiographic correlations in breast cancer patients with . . . . .	27
Ossifying fibroma of tibia (and fibula) ( <i>case report</i> ) . . . . .	307
Osteoarthritis, erosive, large joint destruction in . . . . .	267
Osteocartilaginous multiple hereditary exostoses affecting right femur with an overlying giant cystic bursa (exostosis bursata) ( <i>case report</i> ) . . . . .	134
Osteodystrophy, renal, pseudohypoparathyroidism presenting as . . . . .	43
Osteoid osteoma of the femoral neck with localized synovitis ( <i>case report</i> ) . . . . .	286
Osteoma, osteoid, of the femoral neck with localized synovitis ( <i>case report</i> ) . . . . .	286
Osteomyelitis of right tibia, squamous cell carcinoma arising in chronic, draining sinus tract secondary to ( <i>case report</i> ) .	149
Osteoporosis circumscripta of C3 (Paget disease) ( <i>case report</i> ) .	205
Osteosarcoma, central low-grade, of tibia ( <i>case report</i> ) . . . . .	65
Osteosarcoma and metaphyseal fibrous defect, concurrence of. Report of a case and review of the literature . . . . .	179
Osteosarcoma, periosteal, of femur ( <i>case report</i> ) . . . . .	131
Paget disease of bone and giant cell tumor affecting L2 and L3 ( <i>case report</i> ) . . . . .	299
Paget disease (osteoporosis circumscripta) of C3 ( <i>case report</i> ) .	205
Paget disease, polyostotic, complicated by benign giant cell tumor of left clavicle ( <i>case report</i> ) . . . . .	233
Pain, referred, in the lower leg - A cause of delayed diagnosis . . . . .	39
Pelvis and thigh, right side of, mesenchymal chondrosarcoma of the ( <i>case report</i> ) . . . . .	58
Periosteal chondroma: A radiographic spectrum . . . . .	15
Periosteal osteosarcoma of femur ( <i>case report</i> ) . . . . .	131

Periosteum of the tibia, leiomyoma of the (case report) . . . . .	153
Peripheral neuropathy, solitary plasmacytoma associated with (case report) . . . . .	217
Pigmented villonodular synovitis (PVS) right hip (case report) . . . . .	123
Plasmacytoma solitary, associated with peripheral neuropathy (case report) . . . . .	217
Polyostotic Paget disease complicated by benign giant cell tumor of left clavicle (case report) . . . . .	233
Postnatal skeletal development, radiology of, IV. Distal radius and ulna . . . . .	255
Primary actinomycosis of the right flank (case report) . . . . .	282
Primary amyloidosis involving the skeletal system (case report) . . . . .	69
Primary hemangiopericytoma of the right radius (case report) . . . . .	139
Pseudohypoparathyroidism presenting as renal osteodystrophy . . . . .	43
Pseudotumor, hemophilic, of ilium and soft tissues (case report) . . . . .	54
Radiographic changes in the hands following childhood frostbite injury . . . . .	33
Radiographic and clinical correlations in breast cancer patients with osseous metastases . . . . .	27
Radiology of postnatal skeletal development. IV. Distal radius and ulna . . . . .	255
Radius, distal, and ulna. Radiology of postnatal skeletal development . . . . .	255
Radius, right, primary hemangiopericytoma of the (case report) . . . . .	139
Referred pain in the lower leg - A cause of delayed diagnosis . . . . .	39
Renal osteodystrophy, pseudohypoparathyroidism presenting as . . . . .	43
Roentgenography, correlative, and morphology of the longitudinal epiphyseal bracket . . . . .	109
Sarcoma, synovial, of the knee (case report) . . . . .	221
Scintigraphic sign for early diagnosis: Stress fracture of the femoral neck . . . . .	271
Skeletal system, primary amyloidosis involving the (case report) . . . . .	69
Soft tissues and ilium, hemophilic pseudotumor of (case report) . . . . .	54
Solitary bone cyst with cementum-like bone production (case report) . . . . .	213
Solitary plasmacytoma associated with peripheral neuropathy (case report) . . . . .	217
Spina bifida and unilateral focal destruction of the distal femoral epiphysis . . . . .	119
Spinous process, the: The forgotten appendage . . . . .	199
Squamous cell carcinoma arising in chronic, draining sinus tract secondary to osteomyelitis of right tibia (case report) . . . . .	149
<i>Streptomyces somaliensis</i> , mycetoma due to (Madura skull) (case report) . . . . .	225
Stress fracture of the femoral neck: A scintigraphic sign for early diagnosis . . . . .	271
Symmetrical bilateral skeletal metastases (both femora) from bronchogenic carcinoma (case report) . . . . .	144
Synovial sarcoma of the knee (case report) . . . . .	221
Synovitis, localized, osteoid osteoma of the femoral neck with (case report) . . . . .	286
Synovitis, pigmented villonodular (PVS) of right hip (case report) . . . . .	123
Thigh and pelvis, right side of, mesenchymal chondrosarcoma of the (case report) . . . . .	58
Tibia, central low-grade osteosarcoma of (case report) . . . . .	65
Tibia (and fibula), ossifying fibroma of (case report) . . . . .	307
Tibia, leiomyoma of the periosteum (case report) . . . . .	153
Tibia, osteomyelitis of, squamous cell carcinoma arising in chronic, draining sinus tract secondary to (case report) . . . . .	149
Tibiotalar tilt - A new slant . . . . .	193
Tortuous vertebral artery causing erosive defect of C2 (case report) . . . . .	51
Trabecular architecture, disturbances of, in the upper end of the femur in childhood . . . . .	165
Transverse process, anomalous attachment of, to the vertebral body: An accessory finding in congenital absence of a lumbar pedicle . . . . .	47
Tuberculous arthritis of knee with "cold abscess" communicating with knee joint (case report) . . . . .	75
Ulna and distal radius. Radiology of postnatal skeletal development . . . . .	255
Ultrasonographic diagnosis of extremity masses . . . . .	157
Unilateral focal destruction of the distal femoral epiphysis and spina bifida . . . . .	119
Vacuum, vertebral, phenomenon (letter to the editors) . . . . .	81
Vertebrae, aspects of atypical degenerative lesions of . . . . .	103
Vertebral artery, tortuous, causing erosive defect of C2 (case report) . . . . .	51
Vertebral body, anomalous attachment of the transverse process to the: An accessory finding in congenital absence of a lumbar pedicle . . . . .	47
Vertebral vacuum phenomenon (letter to the editors) . . . . .	81
Villonodular synovitis pigmented (PVS) of right hip (case report) . . . . .	123
